BRIJESH AH

Marthandam, India, 629151 | ahbrijesh2004@gmail.com | LinkedIn | GitHub

Enthusiastic entry-level professional seeking a role as an SAP ABAP Developer or Machine Learning Engineer. Eager to contribute to innovative projects and collaborate with cross-functional teams, utilizing strong presentation and data analysis abilities. Ready to apply my technical expertise in a dynamic and challenging environment.

EDUCATION

BE CSE | RAJIV GANDHI COLLEGE OF ENGINEERING

Pursuing a Bachelor's degree in Computer Science Engineering with a notable CGPA of 8.3 upon completion of the fifth semester. Demonstrated consistent academic performance and commitment to learning, with active involvement in campus activities. Maintained a strong academic record, reflecting resilience and dedication to overcoming challenges.

INTERNSHIP & JOB SIMULATION'S

SAP ABAP INTERN | FORD MOTOR COMPANY
JUNE 2024 – AUGUST 2024

As an SAP ABAP Intern at Ford Motor Company, I gained hands-on experience with data conversion using BDC, LSMW, LTMC and BAPI. I developed a solid understanding of SAP ERP modules and SAP ABAP syntax. I contributed to RICEF development activities, implemented data migration projects and collaborated with cross-functional teams to deliver tailored SAP solutions.

JOB SIMULATION'S
Completed job simulations encompassing sustainability consulting, software engineering, artificial intelligence, data analytics and data science. Skills include assessing client needs, conducting data analysis, developing solutions and presenting findings using Python and Google Colab.
Companies:
- Tata Consultancy Services
- J.P. Morgan
- Cognizant
- Accenture North America
- British Airways
