

ASHOK HELAN BRIJESH

Portfolio

ML Engineer / AI Developer

Kanyakumari, Tamil Nadu, India, 629151

ahbrijesh2004@gmail.com | [LinkedIn](#) | [GitHub](#) | +91 63846 65931

AI/ML Engineer with hands-on experience in fine-tuning, evaluating, and deploying Large Language Models (LLMs) and NLP systems using Python, TensorFlow, PEFT, LoRA, and QLoRA. Skilled in RAG, AI agents, inference optimization, and API-based deployment, with a strong focus on model evaluation, data pipelines, and scalable AI workflows.

EXPERIENCES

Python Trainee Software Engineer | Worktual

February 2026 – Present

- Curated ontology-driven datasets for LLM training and evaluation, improving contextual consistency and data quality.
- Built AI-agent pipelines and MCP-based integrations to automate workflows and orchestrate multi-service interactions.
- Fine-tuned and evaluated LLMs using PEFT techniques mainly LoRA and QLoRA with Unsloth, and inference performance using vLLM.

AI Intern | IPCS Global Solutions Pvt. Ltd.

November 2025 – January 2026

- Developed and optimized ML/DL models on real-world data using preprocessing, feature engineering, and tuning.
- Implemented and evaluated classical ML and deep learning models using TensorFlow/Keras on structured datasets.
- Performing data preprocessing, feature engineering, and exploratory analysis using Python, NumPy, Pandas, and SQL.

Audit Automation & Analyst | Aamin Data Solutions

May 2025 – October 2025

- Designed and deployed **10+ KNIME** workflows to automate audit checks, anomaly detection, and data validation tasks.
- Streamlined audit analysis by automating repetitive processes, significantly reducing manual review time.
- Built a prompt-driven analytical chatbot using an LLM tool to support data analysis and audit decision-making.

SAP ABAP Intern | Ford Motor Company

June 2024 – August 2024

- Supported large-scale SAP ERP data migration using ABAP OOP, BDC, LSMW, LTMC, and BAPI tools.
- Optimized ABAP programs and RICEF developments, improving migration efficiency by **20%**.
- Ensured high data accuracy and consistency across migrated datasets.

PROJECTS

Audit RAG System | LangChain, Ollama, FAISS

- Built a RAG system using FAISS and LangChain to support audit query answering and reduce manual document search effort.
- Implemented semantic retrieval with FAISS and nomic-embed-text embeddings, integrated with a local Phi LLM via Ollama.
- Achieved context-grounded responses, with retrieval and inference performance dependent on local system resources.

Suicide Prevention Chatbot | LSTM, DialogPT, Flask, React

- Fine-tuned a transformer-based conversational model (DialogPT) for supportive, non-clinical dialogue generation.
- Implemented NLP preprocessing and stateless chatbot inference in a local execution environment.
- Deployed the system using a Flask REST API and React frontend, without persistent conversation storage.

Emotion Detection System | CNN, RNN, TensorFlow, Flask

- Built CNN- and RNN-based models for multi-class emotion classification on labelled text/image data.
- Performed data preprocessing, model training, and comparative analysis of model performance and inference behavior.
- Exposed the trained model through a Flask-based REST API for inference testing and integration.

SKILLS

Core Skills

- Python, TensorFlow, Keras, Pytorch Scikit-learn
- PEFT, LoRA, QLoRA, Unsloth, Transformer Fine-Tuning
- NumPy, Pandas, Data Preprocessing & Feature Engineering
- Flask, REST APIs, AI Model Serving
- MySQL, Vector Databases

Applied Knowledge

- CNN, RNN, LSTM, Transformers
- AI Agents, LangChain, Ollama, MCP-based Integrations
- Model Inference & Deployment using vLLM
- Docker, Git, GitHub
- Adapter Merging, Base vs Instruct Model Evaluation

Familiarity & Exposure

- Computer Vision
- KNIME
- SAP ABAP & RICEF Development

CERTIFICATIONS

- [Deep Learning using TensorFlow IBM](#)
- [Accelerated Deep Learning with GPU IBM](#)

EDUCATION

Bachelor of Engineering (B.E.) – Computer Science and Engineering

Rajiv Gandhi College of Engineering

CGPA: 8.2 | Graduation Year: 2025
